

AI IN VET: NEW CURRICULA FOR LEARNERS & TEACHERS

Why It Matters

AI is reshaping every industry - but vocational education and training (VET= must catch up. We created **targeted curricula** to help both learners and teachers develop the skills they need to thrive in an AI-driven world.

Who Is It For

IVET & CVET Learners

→ Gain future-ready skills in data, AI tools, and ethical use of technology.

IVET & CVET Teachers

→ Learn how to integrate AI into teaching and guide students with confidence.

Explore our eady-made curricula for IVET and CVET for 10 courses.

Course 1: **AI in Customer Relationship Management**

Learn how AI personalizes service, boosts customer loyalty, and automates CRM in hospitality.

Course 3: **AI for Sustainable Tourism**

Use AI to understand tourism's impact and develop smarter, more eco-friendly strategies.

Course 5: **Synthetic Patient Records**

Discover how synthetic data protects privacy while advancing AI in healthcare.

Course 7: **Personalized Advertising with AI**

Learn how AI tailors digital campaigns using predictive analytics and customer data.

Course 9: **AI in Customer Service**

Design and implement AI chatbots, virtual assistants, and personalization tools.

What's Next?

Our courses are just the beginning.
Stay tuned — interactive **MOOCs** are coming soon!
Learn at your own pace. Free. Practical. AI-ready.

Course 2: **AI for Personalized Learning**

Apply AI to automate learning tasks, plan study paths, and improve time management.

Course 4: **Human-AI Collaboration in Education**

Explore how teachers and AI can work together through tutoring systems, chatbots, and analytics.

Course 6: **Enhancing Doctor-Patient Communication**

Use AI tools to improve clarity, empathy, and multilingual communication in health settings.

Course 8: **AI in Market Research**

Apply AI tools like NLP and sentiment analysis to uncover consumer trends and insights.

Course 10: **AI in Inventory and Logistics**

Automate forecasting, stock control, and supply chain decisions with AI tools and data.
