

The Future of Work is AI-Powered - Are VET Systems Ready?

What more than 1000 voices across 13 countries told us about the AI skills gap in Europe.

THE SKILLS GAP

65% of organisations report that **AI-related skills** are missing from **VET graduates**.

AI-related roles expected to grow by

20% by 2030

*VET systems are **struggling to keep up** with the pace of change.*

IT'S NOT JUST TECH JOBS

*These 5 sectors together employ **over 88 million people** and account for **nearly 40% of the EU's GDP** — and they're all being **transformed by AI**.*

WHAT'S MISSING

Data literacy

Prompt engineering

AI ethics

Cybersecurity

Working with AI systems

HOW TO FIX IT

Add sector-specific AI content

Train VET teachers

Use DigComp & ESCO frameworks

Involve companies & learners in curriculum design

WHAT'S NEXT?

- New **curricula** for learners & teachers
- AI-based **MOOCs** and pilot programs
- **Teacher training** & capacity building
- **Hackathons** and **incubators** for AI in VET

ABOUT THE PROJECT

A European initiative supporting **VET teachers, learners, and institutions** to respond to the **rapid rise of AI in the workplace**. We work across **13 countries** and 5 sectors to identify **skills gaps** and **build solutions**.
